Feedback & Comments

+ Conference was very informative; The team did an excellent job; Overall a very good meeting; the annual meeting is a great forum to bring together diverse community, government and academic partners to work on cancer in SC, way to go!

+ The data presented was eye-opening and presented in a user-friendly format; Great job; Fabulous meeting!

The background of the page is a photograph of a conference. A man in a dark suit and glasses is standing at a podium on the right, gesturing with his right hand as he speaks. In the foreground, the back of a person's head and shoulders is visible, looking towards the speaker. The scene is dimly lit, with a large screen or wall behind the speaker.

South Carolina Cancer Alliance 2019 Evidence Academies Evaluation Report

The following series of one-page evaluation reports provide a snapshot of South Carolina Cancer Alliance Evidence Academies, as reported by attendees on the survey. The findings reflect activities from the Health Equity Evidence Academy, the Corporate Wellness Evidence Academy, and the Survivorship Evidence Academy held in 2019.

Health Equity Evidence Academy Evaluation Report

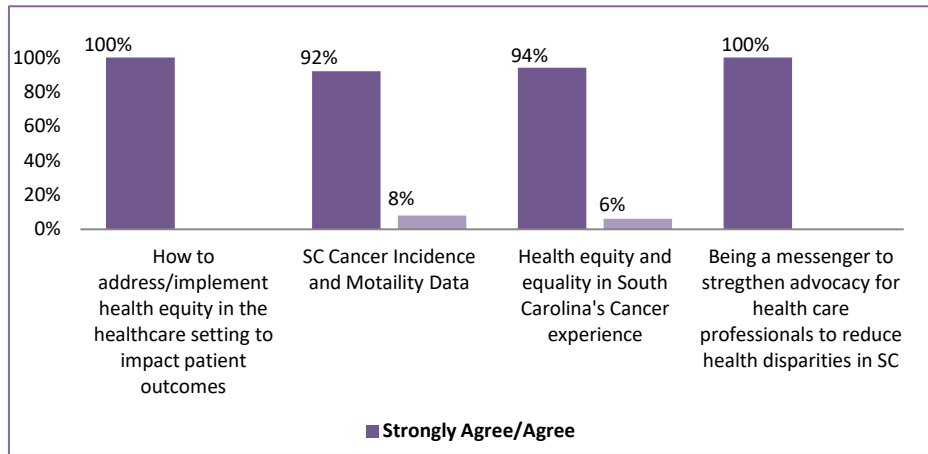

Reducing Health Disparities
in Our State

Topics Included:

- How to relate to the environment of underserved communities
- Four major factors essential to self-development
- Practicing self-reflection and self-awareness
- Bias, implicit bias, and privilege
- Understanding the collateral consequences of structural inequality

92% or greater increase in participants' knowledge and understanding

BIAS KNOWLEDGE CHECK

Attendees were asked true or false questions about bias; **ALL** attendees answered the following questions correctly.

In healthcare, unconscious bias might affect a provider's line of questioning and lead to misdiagnosis

Unconscious bias can affect body language and other cues that cause patients to lose trust, withhold information, or fail to follow medical advice

Definition of bias and privilege are relevant to decreasing health disparities in South Carolina

Learning experiences from the privilege walk

Comments
