

SOUTH CAROLINA
CANCER ALLIANCE

SCCA's Cancer & COVID Webinar Series

November – December 2020

In late 2020, the South Carolina Cancer Alliance hosted a series of webinars to address issues in cancer care that have arisen as a result of the COVID-19 outbreak earlier that year.

Webinar Topics

- Identifying Patients Priorities for Quality Survivorship: Conceptualizing a Patient-Centered Approach to Survivorship Care
- Telehealth in SC, Pre, During, and Post COVID and Implications on Cancer Care
- Taking Care of Self, While Taking Care of Others
- Staying Physically Active Inside and Outside the Pandemic Box
- Adjusting Your Personal Life During the Flu Season and COVID-19 Pandemic

86% of respondents said all the webinars increased their knowledge of the topics

100% of respondents rated the webinar presenters as “Excellent” or “Good”

100% of respondents rated the webinars as a whole as “Excellent” or “Good”

The webinars reached a diverse audience of providers, researchers, administrators, and advocates working in clinical, community, academic, and government settings.

“I really have enjoyed these virtual seminars. It has been wonderful to hear this content without having to travel for an all-day meeting. Love it!”

“Great topic...(the speaker) did an excellent job of distilling the information to be as broad as possible within the time frame”
