Were healthcare professionals

Attended because the training was relevant to their work

Were survivors or currently undergoing treatment

100%

Agreed that the event was organized, stayed on time, relevant, and presenters were prepared and engaging.

Thoughts and Feedback

Excellent! So glad I came today.

The setting was wonderful - I loved being in the Gibbs Cancer Center and being back in person!

More vegan lunches and healthier dessert.

Suggestions for future Topics

- How to get providers involved in nutrition supplements, gut microbiome
- Cancer prevention, obesity management - newer interventions, more from Dr. Trilk!
