What is one thing (or more) you learned or enjoyed hearing about at today's event?

- The importance of transition to extended care after treatment
- Practical tips and strategies to implement the skills we were taught today
- Mental health resources
- I enjoyed learning more about the effects later in life both physically and mentally
- Grant information for young cancer survivors that may help with rent or being able to live on their own. Different podcasts, etc. that may be helpful for getting more information
- The information from Dr. Dumitriu
- Being able to see other people in the same situation as I am in
- I am happy to learn about after effects from brain cancer, radiation, and chemotherapy
- Various resources and support groups. Love Dr. Sexton's presentation. Free apps
- The long term problems (20-30 years out)
- I enjoyed learning about cancer with the information that was given to me
- The importance of knowing how treatment determines the side effects a person will have and the need to look out for help. Boone project

Any additional comments, questions, or concerns?

- Maybe have a sidebar meeting for parents regarding parenting a AYA cancer survivor
- I really enjoyed the speakers after lunch. They were so fun and made me think about things in a new way
- Make it easier to interact with the people and the doctors
