Of participants strongly agreed with the following statement: The event provided resources and tools that I found useful

Of participants strongly agreed with the following statement: I found the group activity useful

Of participants strongly agreed with the following statement: I intend to use the information I learned from this event

What is one thing (or more) you learned or enjoyed hearing about at today's event?

- I heard that you need to go to the doctor
- I enjoyed everything. Great discussion
- No excuse. Things provided if needed
- Stories and guidance
- The ways Cancer Alliance is helping our communities to save our families and loved ones
- Getting tested. People being scared
- Getting someone to get a screening
- The stories others shared and Dr. Keith giving advice from a doctors point of view
- Suggestion on how to encourage doctors visits
- I need to talk to male family members
- That encouraging someone to have early screening can save their lives
- I learned most people's excuse for not going to the doctor is FEAR
- Everything was very important
- I learned that males do not like going to the doctors but, if we as females would just ask or tell them i will go with you that is motivation
- Learning about different ways of cancer
- How important it is to go to the doctor

Any additional comments, questions, or concerns?

- I enjoyed the talk
- I enjoyed it. I'm all about reaching out and helping people
- I enjoyed it, very helpful
- Thank you for all you do! God bless!
- Great idea to get women together
- Talk to our loved ones about going to the doctors every year
- Discuss health issues facing females not just men. Distribute information at events
- Very good presentation!
