Of participants were extremely satisfied with this event

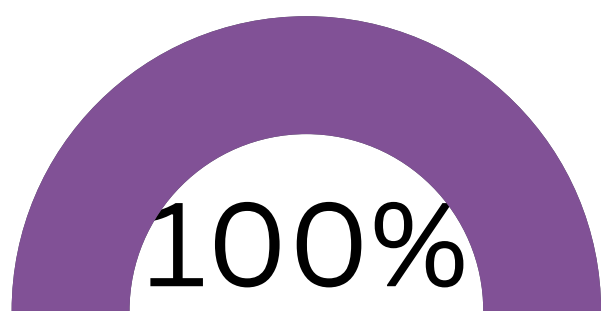

Of participants strongly agreed with the following statement: The information provided during this event was useful and relevant to me

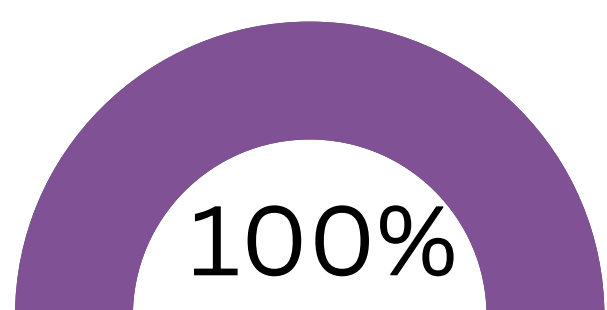

Of participants strongly agreed with the following statement: The speakers were knowledgeable and kept me engaged throughout the event

Of participants strongly agreed with the following statement: Attending this event increased my knowledge of the topic

Of participants strongly agreed with the following statement: The event provided resources and tools that I found useful

Of participants strongly agreed with the following statement: I intend to use the information I learned from this event

What is one thing (or more) you learned or enjoyed hearing about at today's event?

- A great reminder about literacy levels and making assumptions about what knowledge people have about medical terms
- Writing from a positive perspective, ways to trim down content to be more considerate and understanding, terms and jargons to avoid using
- Learning to be clear and concise with positive words
- How we use our words to communicate-simplify
- Available resources
- Speak so that others can understand us
- I learned different ways to break down jargon language

Any additional comments, questions, or concerns?

- Great presentation
- It was a great presentation
- This was very helpful and will be mindful of my words as I prep for grant season
- This was a great topic and a wonderful speaker. Very relevant to the work we do
- Great meeting
